Starbucks and Planet Water

Bringing Clean Water and Hygiene Education to Communities in Need

Starbucks…

Transforming the Lives of Those in Need

Situated between two garbage landfill sites is the home for SDN Sumur Batu I Primary School, located just outside of Jakarta. Thanks to Starbucks Indonesia, this school now has clean, safe water!

Starbucks is generously donating 10 cents (1,000 Rupiah) from every bottled water purchase across all of Starbucks' stores in Indonesia to support bringing clean, safe water to those in need.

Starbucks' Jakarta employee volunteers joined the Planet Water team to install the AquaTower and help with the implementation of Planet Water's Water-Health & Hygiene education program into the school. The volunteers worked tirelessly to help ensure that this school and local community of over 2,000 people have clean, safe water for the first time.

THANK YOU Starbucks for your support and partnership – and most importantly, for the impact you're making to those in need!

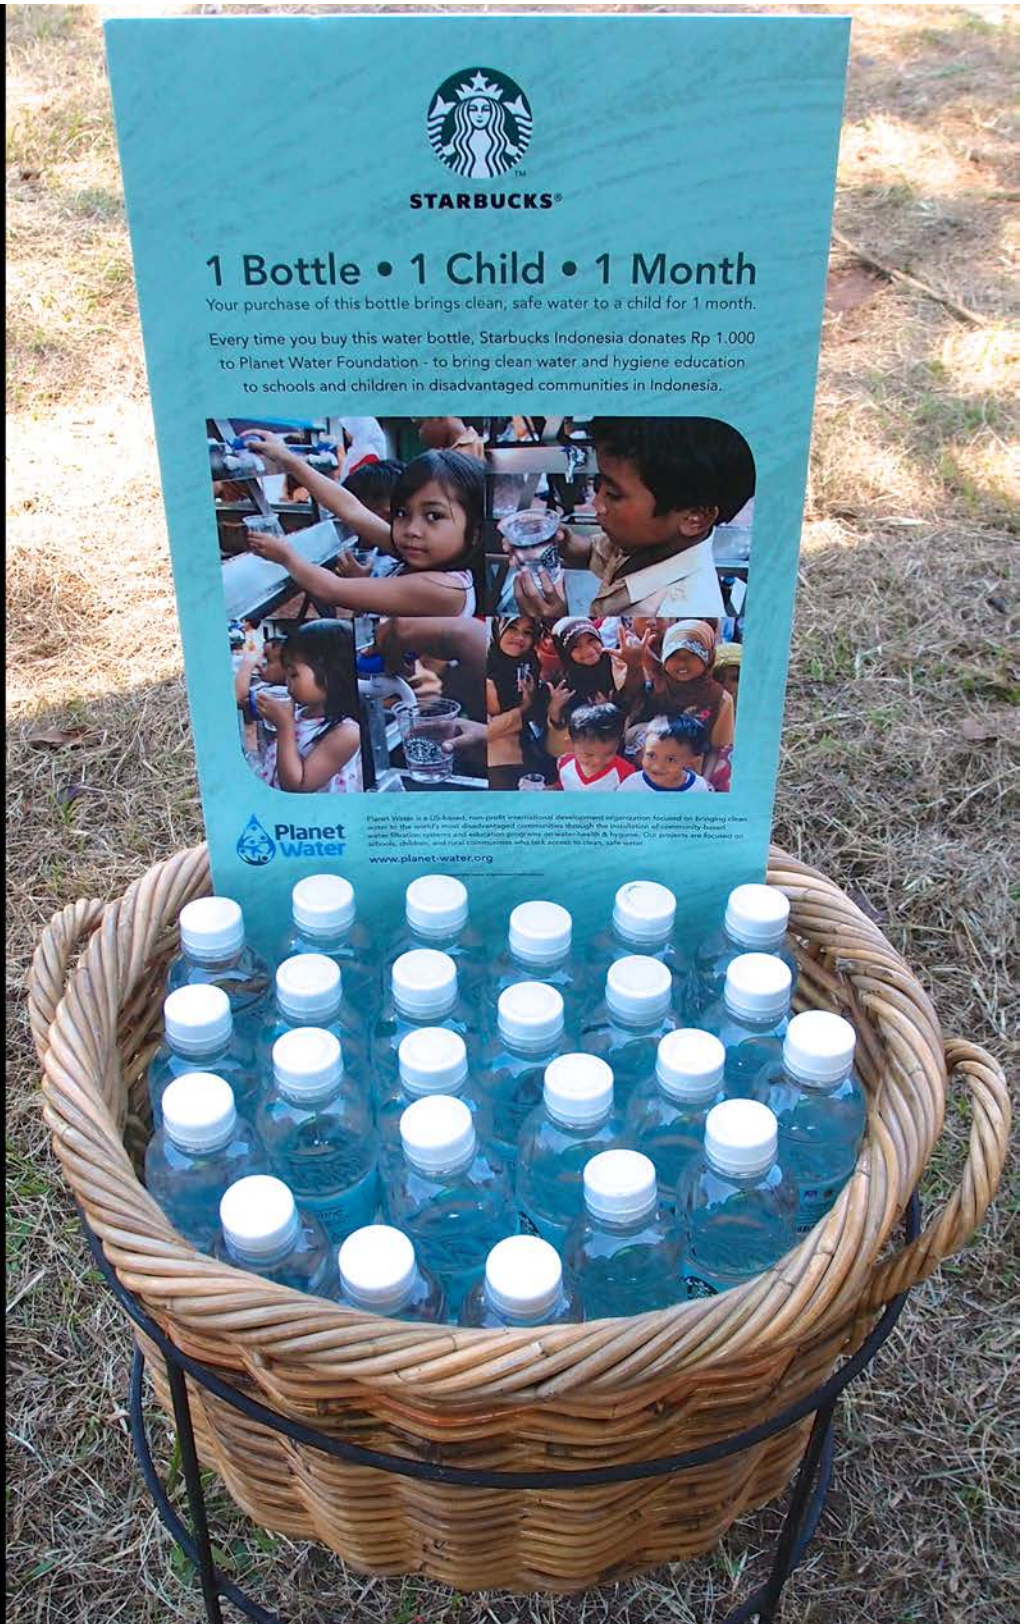
1 Bottle • 1 Child • 1 Month



STARBUCKS®
1 Bottle • 1 Child • 1 Month
Your purchase of this bottle brings clean, safe water to a child for 1 month.
Every time you buy this water bottle, Starbucks Indonesia donates Rp 1.000 to Planet Water Foundation - to bring clean water and hygiene education to schools and children in disadvantaged communities in Indonesia.
